Explore Solids And Liquids!: With 25 Great Projects (Explore Your World)

Synopsis

For a kid, watching a solid turn into a liquid or a liquid into a gas is nothing short of magic. In *Explore Solids and Liquids! With 25 Great Projects* kids experience the wonder of different states of matter. They'll learn what matter is made of, how it can change, and how these interactions really work in our universe. With plenty of activities and projects, young readers gain a solid understanding of the matter they touch, see, feel, and experience every single day. As young readers discover the basic concepts and vocabulary of chemistry, they will experiment with household objects to discover how solids, liquids, and gases occupy space. Kids will dissolve solids into liquids and bring them back again, use salt and pepper to demonstrate water's surface tension, and fly helium-filled balloons to see what happens to molecules at different temperatures. Illustrated with cartoon illustrations and filled with fun facts, *Explore Solids and Liquids!* makes science entertaining and exciting. *Explore Solids and Liquids!* meets common core state standards in language arts for reading informational text and literary nonfiction and is aligned with Next Generation Science Standards. Guided Reading Levels and Lexile measurements indicate grade level and text complexity.

Book Information

Lexile Measure: 820 (What's this?)

Series: Explore Your World

Paperback: 96 pages

Publisher: Nomad Press (August 12, 2014)

Language: English

ISBN-10: 1619302373

ISBN-13: 978-1619302372

Product Dimensions: 0.2 x 8 x 10 inches

Shipping Weight: 7.2 ounces (View shipping rates and policies)
