Customer Reviews

Very good book for 4th grade curriculum regarding the 50 United States, various regions, and much information about the geography and history of various states and regions. There are also little one page biographies of important people through out history. It is well-written and I have not found any historical errors so far. My 4th grade son likes it a lot and we will stay with the Scott Foresman series for the remainder of our homeschooling years.

I like it. I would also like to have the accompanying Teacher's Ancillary for each of the books that I

have purchased. Thank you.Mary L.
