# Fifth Grade Science: (For Home School Or Extra Practice)

## Synopsis

This workbook, with 40 science experiments and 100 quiz questions, covers the following topics: Scientific Investigation, Changes In Matter, Electricity In Matter, Organisms, Light Human Body, Life Cycle and Reproduction, Weather, Earth and How It Changes If you are homeschooling (or if you are just trying to get extra practice for your child), then you already know that science workbooks and curriculum can be expensive. HomeSchool Brew is trying to change that! We have teamed with teachers and parents to create books for prices parents can afford. We believe education shouldn't be expensive. The problem portion of the book may also be purchased individually in "Fifth Grade Science Experiments."

## Book Information

Paperback: 166 pages

Publisher: CreateSpace Independent Publishing Platform (April 25, 2014)

Language: English

ISBN-10: 1499273231

ISBN-13: 978-1499273236

## Customer Reviews

Excellent book! Great learning tool and fun with lots of at home experiments. I would highly recommend this book for any 5th grade student who needs extra help in science or just simply loves science!

Yes, they do give experiment options - however, I do not believe they were proofread very well. There was an error within the first experiment that we completed. And the layout of the book is extremely poor. I had to retype the chapter 1 Quiz in order for my daughter to be able to do the matching exercise.

We used it to study for a JH entrance exam. No result yet but seems to cover the needed material.

Science is great for everyone and it's amazing what you might learn (again) while you help your school children.

I am satisfied with the purchase. Thank you!
