## Customer Reviews

This was a great "beginners drawing" book for kids. My daughter loves it. I would recommend this to any parent who has a child that loves to draw. This will keep them busy for hours. Thank you!

My interest in learning to draw was piqued recently. provided the best resource for instruction books at the most reasonable costs. Now I can learn, and still afford to pay the rent. Ralph Masiello's books are a particular favorite. His step-by-step, line-by-line instructions are remarkable for those of us who are impatient to create a drawing right away. The dinosaur book is for my kid nephew. His books on ocean creatures and dragons are mine. Now that I've learned to create these images in my own hand, they translate to any format a crafter can imagine -- not just pencil or paint, but embroidery and mixed media art. Kudos to Ralph!

One of my children loves dinosaurs. When we were learning about dinosaurs in school, we drew pictures of the various dinosaurs in this book. I had never drawn dinosaurs before, neither had my older children. We all did very well following the instructions and are delighted with the results.

I purchased this for my 8 year old daughter who loves dinosaurs and is always drawing them. The step-by-step instructions and illustrations made it very easy for her to follow and imitate. She was very happy with the end results of her drawing. She especially likes that her drawings now look more realistic.

I checked this out of our local library for my girls (6 and 8) because they both love to draw, and love dinosaurs, and their very first drawings were AMAZING! The steps are so easy to follow, and I think they are learning how to really \*look\* at the objects and figures they are trying to draw now, even without using this book. But the artwork they have created from the book alone--especially my 8 year-old's--is superb. I would highly recommend this book to anyone with a child who loves to draw, but if they like Dinosaurs, it's a MUST!

I got this for my 6 year old grandson and he loves it. It shows him step by step how to draw and he spends hours with this!

Great book and specific instructions on how to draw dinosaurs! My granddaughter loved it!

Great book for learning how to draw Dinos. My daughter loves it!
