Science, Nature & How It Works

Age Range: 5 - 10 years

Grade Level: Kindergarten - 4

Customer Reviews

This is a great addition to our unit on force and motion. The pictures and words are appropriate for kindergarten through 2nd grade.

I just loved this book! This book was a wonderful supplementary material to the science lesson that I taught to my 2nd graders!

Good content but illustrations are strange. I wish they were more realistic

Our son loves all the early science books, including this one. He now uses all the "motion" words when he can fit them in a sentence. Great vocabulary builder!

Super introductory book for kindergarten. My kids loved the pictures and I love all the new vocabulary I can introduce.
